- HTML 5
- CSS 3
- JAVASCRIPT
- BOOTSTRAP
- JQUERY
- METEORIALIZE CSS
- REACT JS
- ES6
- PHP
- C, C++

LANGUAGES

- English
- Urdu
- Punjabi

PROFILE SUMMARY

Enthusiastic and detail-oriented React JS Developer with 1+ years of experience in front-end development. Adept at translating design concepts into interactive web applications, optimizing performance, and ensuring seamless user experiences.

WORK EXPERIENCE

REACT JS DEVELOPER

Oct,23 - Present

Qit solutions (Uk-Based)

JoharTown, Lahore

- Developed a user-friendly web application using React.js and Tailwind CSS to facilitate seamless migration between cloud platforms.
- Implemented a comprehensive user authentication system, allowing users to create accounts, define roles, and manage permissions within the application.

REACT JS DEVELOPER

Feb,23 - Sep ,23

Pixel2Graphic

JoharTown, Lahore

- Acting as a front-end developer using React Js, managing user login/signup, and selecting vendors and venues based on price ranges city, and category.
- Creating interactive and responsive user interfaces using React.js to meet project requirements.
- Developing reusable React components for various parts of the application.
- Implementing state management using React built-in state or external libraries like Redux.
- Fetching and handling data from APIs or databases and displaying it in the UI.

FRONT-END REACT JS DEVELOPER & RESEARCH OFFICER

Jun,22 - Feb,23

Al-Khwarizmi Institute of Computer Science (KICS)

University of Engineering and Technology, Lahore

- Implementing client-side routing using libraries like React Router to enable navigation within the application.
- Identifying and fixing bugs, performance issues, and other technical problems in the React codebase.

WORK EXPERIENCE

- Optimizing the application for performance by reducing unnecessary re-renders and optimizing network requests.
- Using version control systems like Git to manage code changes and collaborate with the development team.
- Identifying and fixing bugs, performance issues, and other technical problems in the React codebase.

MERN STACK DEVELOPER

May,21 - Aug,21

The SKILLS Institute

Basement BC tower, Faisalabad

- Documenting code, components, and processes to facilitate team communication and knowledge sharing.
- Staying updated with latest React.js trends, best practices, and emerging technologies.

COMPLETED PROJECTS

SWIFTSYNC ADMIN AND USER SIDE

For: Qit solutions (Uk-Based)

Languages: React JS, Redux Toolkit, Tailwind CSS, Python

- Spearheaded a cloud transfer project enabling efficient data migration between diverse platforms, such as Google Cloud and Box.
- Developed and implemented secure data transfer mechanisms to ensure the integrity and confidentiality of transferred data.
- Designed and integrated user roles and permissions, enhancing the project's security infrastructure.

REACT-BASED APPLICATION FOR CLINIC MANAGEMENT

For: Qit solutions (Uk-Based)

Languages: React JS, Redux Toolkit, Tailwind CSS, Python

- Led the development of a React-based application for clinic management, named NHTC (Next-Gen Health Clinic).
- Implemented a single-tenant architecture to optimize the application for specific clinic environments, ensuring streamlined operations.
- Designed and integrated a comprehensive user roles and permissions system, tailoring access controls to meet the unique needs of clinic staff and administrators.

THINGZEYE FIREWALL GUI DEVELOPMENT

For: KICS UET-LHR project

Languages: Html, CSS, JavaScript, Bootstrap, PHP, JQuery, XML, Python

- Admin used only due to security purposes, admin can control and manage security alerts.
- Developed a robust firewall logs management dashboard.
- This dashboard provided real-time insights into network traffic, identified potential threats, and facilitated rapid incident response.

COMPLETED PROJECTS

LOOTHOOT (REACT JS BASED REPLICA OF HYPEDROP.COM)

For: Pixel2Graphic project

Languages: [React JS](#), [React-Bootstrap](#), [Material UI](#), [Laravel](#)

- Mystery Box Unboxing: The ability to purchase and open mystery boxes, revealing various items or prizes upon unboxing.
- Battle Feature: A multiplayer mode where two or more players can engage in battles, typically involving the opening of mystery boxes, with the winner receiving rewards or items from the battle.
- Betting System: The inclusion of a betting system within battles, allowing users to wager items, currency, or other assets on the outcome of battles.

TAQAREEB (REACT BASED WEB APP)

For: Pixel2Graphic project

Languages: [React JS](#), [React-Bootstrap](#), [Material UI](#), [Laravel](#)

- A comprehensive directory of wedding vendors.
- Detailed profiles for each vendor, showcasing their portfolios, reviews, pricing.
- A booking system that enables couples to schedule and confirm services directly.
- Allows couples to leave reviews and ratings with, helping other couple.
- A catalog of wedding venues with descriptions, photos, pricing, and availability information.

EDUCATION

MASTERS IN COMPUTER SCIENCE

2021 - 2023

[University of Engineering & Technology, Lahore](#)

- CGPA: 3.56 out of 4.0
- Degree: MS-Computer Science

BACHELORS INFORMATION TECHNOLOGY

2017 - 2021

[University of Agriculture, Faisalabad](#)

- CGPA: 3.61 out of 4.0
- Degree: BS-Information Technology

INTERMEDIATE

2015 - 2017

[GOVT Degree College, Hafizabad](#)

- Marks Obtained 800 out of 1100
- Degree: FSc- Pre Engineering
